

Give the gift of Verjú

Reveal your true shape in as little as **2 weeks**

**Call or visit us on the web
to learn more about Verjú Laser Treatment**

The Verjú Laser System is a new, revolutionary, FDA CLEARED treatment that trims inches off your midsection and thighs by removing stubborn body fat! Now you can achieve results similar to Liposuction without the risk or cost of surgery or time lost from post-operative recuperation!

The Verjú Laser System works by painlessly emulsifying fat under the skin and the body safely eliminates the fat through the lymphatic system.

- **ZERO PAIN, ZERO SURGERY, ZERO RISKS, ZERO DOWNTIME**
- **Reduce stubborn fat and cellulite from your waist, hips and thighs**
- **FDA clinical trials demonstrated a 4 inch loss (with some reporting 9 inches!) in 2 weeks of treatment**
